

ENOGEN CORN STEWARDSHIP QUICK CHECKLIST*

- Read contract and verify growing and use requirements
- Identify and segregate Enogen® seed
- Communicate planting intentions to neighbours
- Plant in contracted fields only, or if necessary, amend contracted fields prior to planting
- Plant Enogen seed with a minimum of 30 foot border rows of non-Enogen corn or physical border
- Clear planter of visible Enogen seed
- Complete planting documentation
- Return unplanted Enogen seed
- Harvest all harvested product from border rows together with Enogen harvested product
- Clear combine of visible Enogen seed
- Complete harvest documentation
- Place signs/stickers on Enogen grain storage facilities
- Clearly identify silage samples sent to labs as Enogen
- Follow transportation requirements

Enogen corn stewardship is very simple to follow.
It is a very user-friendly, farmer-friendly program.
