

David Kuypers

Head of Supply Operations, Crop Protection, Syngenta Canada

David Kuypers is Head of Supply Operations for Syngenta Canada, leading the Production and Supply and Commercial Operations function. This dynamic team is responsible for delivering an industry-leading end-to-end customer experience across the Crop Protection business.

Under David's leadership, Syngenta endeavours to be at the forefront of integrating technology and implementing process improvements to create a seamless, efficient, and responsive supply chain that enhances customer satisfaction. His focus is to create a Supply Operation that ensures alignment between production capabilities and commercial needs, resulting in optimized inventory management, reduced lead times, and improved product availability for Syngenta's customers. David's blend of operational expertise and commercial acumen positions him as a key driver in Syngenta Canada's mission to deliver a 'best-in-class' customer experience.

David is a graduate of Wilfrid Laurier University, Penn State University, and the Executive Education Management program at the Schulich School of Business. He has held a Certified Golf Course Superintendent (CGCS) designation with the Golf Course Superintendents Association of America as well as a Professional Agrologist (P.Ag) designation with the Ontario Institute of Agrologists.

David serves the Canadian agriculture industry as a board member of the Agrichemical Warehousing Standards Association (AWSA), part of CropLife Canada. He has also taught Business Fundamentals for Turf in the Diploma in Turf Management program at the University of Guelph.
